About Ality

We are a technology firm based in Hong Kong. We design and develop high-quality and innovative products and services for the modern home. Our products include digital photo frames, hi-end entertainment and hi-tech lifestyle gadgets.

Founded by a group of designers and engineers who are enthusiasts of digital entertainment and lifestyle, we foresee the technological convergence of all aspects of the home, from entertainment to quality living. We want to share our passion and expertise with those who see the same future.

Ality is the expression of this passion. In the foreseeable future, we envision bringing elegantly designed yet affordable advanced digital products and services into every home and household.

Wireless PIXXA™ Digital Photo Messenger™

Wireless PIXXA™ is an original new digital photo frame with Wi-Fi capabilities and an intuitive user-friendly interface. Multiple user accounts within the device means that every member in your household can enjoy their very own personal multi-media libraries, customized to their own individual preferences and personalized visual settings. Wireless PIXXA™ has a sleek minimalist design - this is a product that meets the needs of your particular lifestyle. Wireless PIXXA™ is at home in any room.

Facebook

You may now connect to your Facebook account through our Wireless PIXXA. You can serve yours and your friend's photo album in anytime without a computer.

Photo Messenger™

Revolutionizes the way we share digital photos around the world

By embedding a feature named Photo Messenger™ into the Wireless PIXXA™ you are fully equipped to instantly send and receive photos from your family and friends from anywhere in the world via the internet, either direct from your computer, or from PIXXA to PIXXA frame.

invite your friends to share photos through Ality online

communicate by messenger client in computers

Ality Online™

Ality Online offers everyone an Ality Online account – users of the Wireless PIXXA™ can register for an account, as can non-users. Account holders can have up to 50MB of photo storage, which equals up to 600 extra photos for sharing and exchanging with one another. The incredibly easy to manage user interface of this website is intuitive and hassle free – the drag-and-drop feature enables users to choose their personalized selection of photos, and it also facilitates how they locate the people whom they want to send them to in an complicated way.

Photo Messenger™

Photo Messenger™ Revolutionizes the way we send images to one another, without having to use your computer, incorporation stunning visuals and a more personal feel. With it you are fully equipped to instantly send and receive photos from your family and friends from anywhere in the world via the internet. Users are allowed to instantly share digital photos with their family and friends similar to instant messaging programs.

Photo messages can be anywhere. Wireless Pixxa™, Computer, ALITY Online, flickr, Picasa.

Pick the online news that you're interested

Live Calendar™

Helps you organize your life the way you want it

Wireless PXXXX™ is designed to suit your lifestyle, and can synchronize with Google Calendar. With the Live Calendar™ feature, users are able to synchronize their schedules with popular online Calendar websites such as Google Calendar.

Live News™

Delivery news every morning right to your bedside

Wireless PXXXX™ can wirelessly stream live news, sports, weather, traffic, entertainment, horoscopes, stock quotes and any other lifestyle updates that you may want instant access to

Aity Online

As an added benefit, Aity Online offers everyone an Aity Online account - users of the Wireless PXXXX™ can register for an account, as can non-users.

Multiple User Accounts

Multiple user accounts within the device means that every member in your household can enjoy their very own personal multi-media libraries, customized to their own individual preferences and personalized visual settings.

Auto-tilting

With the new auto-tilt function, show your friends and family different perspectives of your recreational time by showing your snap-shots in landscape or portrait modes and simply turning the frame.

Button-less Touch

Keeping the operation simple, Button-less Touch is aesthetically more pleasing than traditional buttons, by using the surface of the frame to act as a button for easy access and control of the units.

Update your Flickr or Picasa accounts to your Wireless PXXXX™

Users are able to update photos from Flickr™ and Picasa™ instantly, with simple, easy to follow steps.

Photo Messenger™

- Log in account, send and receive photo messages.
- User can send up to 10 photos and 5 friends at the same time.
- Each account allows up to 50MB free storage, that's around 600 photos.
- Drag friends and photos to compose box. It supports multiple users and photos for sending.
- Send photos from Google, Flickr and Picasa to your friends, or upload your received photos to your accounts in Flickr and Picasa.
- Set their own profiles.

News

- Pre-set couple news channels for selection, users can receive news and stream directly to the photo frame.
- Add the link to favorite news channel.

Flickr

- Receive photos from friends.
- Able to set an email assign to their Ality account, so users can email their photos to other email address.

Google Calendar Support

- Automatically download the pre-set appointments from Google Calendar.
- Pre-set the frequency of the update and assign a photo for the pre-set event.

A digital wonderland in your modern home

PIXXA Slim

PIXXA Slim brings a sleek alternative edge to your interior decor. Unobtrusive and tastefully designed, there are 3 different shades of timber tones with which to complement your living room or home. The 8-inch digital LCD screen of the Moderna ensures viewing quality for high-resolution images, and with its 800x600 resolution screen, Wireless Pixxa™ can guarantee a consistently flawless viewing experience of your pictures.

Clock and Alarm

Because of the innovative built-in alarm clock feature, you are able to customize what you wake up to – be it your favorite movie, photo or music to make waking up that much easier.

Alty Photo Scheduler

With Alty's photo scheduler function, users can choose specifically when certain pictures come up, so that you can wake up to the sight of your loved ones, or particular holiday memories. Working with the calendar function, you are now able to even turn off the photo frame, the Pixxa will automatically turn on and display your chosen photo, at whatever time you want.

Auto-tilting

With the new auto-tilt function, show your friends and family different perspectives of your recreational time by showing your snap-shots in landscape or portrait modes, and simply turning the frame.

A digital wonderlama in your modern home

MODERNA
