PHYSICIAN & APP RESOURCES
Google Classroom

The goal of **Google Classroom** is to serve as a centralized hub of informatics resources for clinicians across the organization. This Google Classroom is designed to provide easy access to a wide range of resources that can aid our clinicians team in their daily tasks and ongoing learning.

Key Features and Resources Available:

Clinicians Helping Clinicians (CHC) Videos: We understand that workflows and processes in the medical field can be complex. Which is why we developed the CHC videos. These videos help navigate the user on how to complete a workflow in Epic.

Dump the Junk Form: A way to improve the EHR. Tell us what we can do to make Epic better!

Request Form: Request a CHC video.

Maestro: See the Clinician's Corner section of the weekly Maestro newsletter.

CI Tip Sheets: Step-by-Step Guides on how to complete a workflow in Epic.

Clinical Informatics Rounding Calendar: Find out when our team will be on site so you can ask questions and share ideas.

The Google Classroom is customizable. We encourage our clinicians to share their ideas with the Informatics team. As a reminder, accessing the classroom can only be accomplished with an HMH email address.
